## **SUBGROUP THREE ELECTION COMMISSIONER**

Election Records: 1913-1970

Cubic ft: 19

No of items: 13 reel, 35mm, diazo microfilm; 564 reels, 16mm

### **SCOPE AND CONTENT NOTE**

This subgroup of record group 230, Douglas County, consists of microfilmed election records for Douglas County & Omaha, 1913-1970. The records were microfilmed by the Douglas County Election Commissioner and duplicate reels were given to the Archives in 1977. Reels 1-13 of Abstracts of votes cast, 1890-1966, were copied from Douglas County original microfilm in 1978.

Regular registration forms (original Registers) were used at the polling place. Cancellation forms or cards originated in the office of the Election Commissioner. These forms were kept active until the registrant let it expire, got married, changed their name

or died. Some forms are marked challenged. The period between a "challenge" and challenge expired" was exactly one year. Cancelled registration forms include information for name, Ward/District, Country of Nativity, Date of Naturalization, Court of Naturalization, Date of Registration, Addresses in Douglas County, Date of Cancellation and reason. More information is available on the regular registration records.

Series Two, Cancelled Voter Registrations, 1913-1951, consist of original voter registration cards which were cancelled by expiration, marriage, death, name change, etc. Names appearing more than once on different registrations are for the same person and usually the result of a change of address. ### **SCOPE AND CONTENT NOTE**

This Subgroup contains records of Douglas County Probate Court, 1857-1971. Much of the microfilm is restricted to Reference Staff use only. The 16mm microfilm for records 1857-1941 was produced by an outside vendor for Douglas County in May of 1965. Additional Probate dockets dating from 1941-1971 were microfilmed by Douglas County in 1979. The State Archives does not claim responsibility for the condition of the records on microfilm not produced by our agency. Much of the film produced in 1965 has poor density and copy quality cannot be guaranteed. Many pages were torn or obscured during the filming process. We have opened this film for use of patrons because of its poor quality and because the records are marked for refilming in the near future.

The fee books of Douglas County Probate Court, Dockets #1 (1868) thru #92 (1964) were accessioned by the State Archives September 24, 1991 and are in the process of being microfilmed by our agency. These books provide an index to filings in Probate Court, including estates, guardianships, assignments, condemnations, and railroad accounts w/ Douglas County for condemnation matters.

All the above microfilm is restricted to use by reference personnel only as the volumes contain early adoption records which are sealed by law. Requests for information must be submitted to reference staff who will research the film for patrons.

An Administrative Index to Douglas County Probate records, 1864-1947, which access the fee books appears on rolls #1 and #2 of series one. Also appearing on this roll is a general index to Douglas County probate for Probate Dockets A thru Q and 1 thru 13, 1857-1890.

## SERIES FOUR      PROBATE DOCKETS, 1857-1971

NOTE TO PATRONS: Patrons should use the Fee Books of Series Three as a guide to the probate dockets. These dockets are similar to the complete record of the district court. They can record a probate case from beginning to end in one volume. In early years a case was recorded in the dockets after closure from beginning to end. For cases 1858-1895, individual filings are found in the Entry and Estate Books of Series One & Two. The dockets have no real chronology and are not filed alphabetical.

The Administrative Index filmed with Series Three is alphabetical and includes most cases from 1900-1947. Some early cases are not included. Use the General Index, Vol. #1 on microfilm for early Douglas County Probate.

The fee books prior to 1897 were used strictly as fee books and there is no reference to book and page numbers. You must use General Index vol. #1 and check each volume & page entered to find desired documents. There is no fast way to find individual documents prior to 1896.

For cases after 1896, if a date of probate or case numbers have not been received from Douglas County, it is better to leaf through the Administrative Fee Books of Series Three than to attempt to find a probate using the Probate Dockets.

NOTE: Single dates used in this inventory are the date of filing of the initial papers in a probate case and do not reflect the inclusive dates of one case file in the dockets. Microfilm Record can be found following volume inventory.

## **SUBGROUP TEN DISTRICT COURT, 1855-1972**

**Access Note:** Many district court records created prior to Nebraska's statehood are arranged under RG058 Territorial Court Records. Please see that finding aid for more information.

### **SERIES ONE, NATURALIZATION RECORDS, 1855-1964**

#### **Scope and Content Note:**

The Naturalization Records of Douglas County were microfilmed by the county in October and November of 1977. The Clerk of the District Court received a positive copy of the microfilm as well as the Nebraska State Historical Society for the reference room. The security masters were sent to Douglas County storage in Hutchinson, Kansas. If copies of the microfilm produced by the county is desired, patrons are requested to contact the Douglas County District Court.

Original records were transferred to the Douglas County Historical Society, except for the early naturalization records and the supplemental documents and certificates. Originals are available for Vols A-C of Declarations, 1855-1870; for supplemental documents (1 box); and certificates of Naturalization, 1906-1921. The remainder would be at Douglas County Historical Society.

To find your documents, review the indexes on reel #1-#3 of Subseries One. Obtain the volume number and the number of the declaration or petition as that is how the collection is inventoried and it will make finding your document easier. Match the volume number or the number of the declaration to the roll number.

Prior to 1906, no petition or declaration numbers were assigned. The Affidavits of Naturalization, Subseries five, accompany declarations prior to 1906. These volumes are indexed at the front of each volume. Also, check the index reel of naturalizations prior to 1906 in Nebraska to obtain the Journal volume and page where citizenship is recorded. The Journals are in original format, but an index to Journal A-M exists on roll #1 of Subseries One. There are some supplemental documents in Subseries four that may relate to early naturalizations. These documents are indexed in this inventory and have not been microfilmed. See reference staff for access to these records. Declarations, V. AC for 1855-1870, have recently been microfilmed by the Genealogical Society of Utah. The Historical Society has a copy master.

After 1906, the Petition and Record should contain full documentation of a persons naturalization, including their declaration of intention. Obtain volume and petition number to get to the correct reel. Also, check the supplemental documents of subseries four. These records were never microfilmed and may accompany certain naturalizations after 1906. There are also loose declarations of intention available in subseries two, Box 1, that may relate to

these naturalizations. These include some out of state declarations and are indexed in this inventory.
